GSEA GO term top10 Enriched Pathways
pCR vs pNR
Enrichment
pCR enriched
pNR enriched
inner mitochondrial membrane protein complex
respiratory chain complex
respirasome
mitochondrial respirasome
aerobic electron transport chain
mitochondrial ATP synthesis coupled electron transport
ATP synthesis coupled electron transport
mitochondrial inner membrane
mitochondrial protein−containing complex
respiratory electron transport chain
negative regulation of cell development
DNA−binding transcription activator activity, RNA polymerase II−specific
DNA−binding transcription activator activity
DNA−binding transcription factor activity
negative regulation of myeloid leukocyte differentiation
DNA−binding transcription factor activity, RNA polymerase II−specific
positive regulation of acute inflammatory response
inflammatory response to wounding
positive regulation of interleukin−6 production
negative regulation of fat cell differentiation
